## UP-TO-DATE WITH RACETECH

Dear sponsors, supporters and friends,

on 3rd of June we carried out the rollout of our RT14evo successfully in the Alte Mensa in Freiberg. We would like to thank all sponsors for their support and assistance during the rollout. To re-watch the event, you can watch the rollout live-stream at the following link: <https://www.youtube.com/watch?v=xZaa3Dx866c>

In addition, we would like to inform you that this is the last regular newsletter of the season. We will tell you about the competitions in the events newsletter, which will be published after the events. This year we will participate in Formula Student Netherlands in Assen (July 9th to 14th) and Formula Student Germany (August 15th to 21st) in Hockenheim.

## ROLLOUT EVENING

On June 3rd, we finally were able to present our RT14evo to our sponsors, friends and relatives.

This year's rollout was all about change and development. After a short welcome by Svenja Linke and Philipp Geisler, Prof. Ulrich Prahl, director of the Institute for Metal Forming and patron of the team since 2019, was able to address our guests for the first time. Afterwards, Prof. Martin Sobczyk was invited onto the stage. As CEO of Krebs und Aulich, he began supporting the team in the development and production of the four-wheel-drive motors in 2019. Philipp Geisler presented this major change as well as other important components of the technical concept of the RT14evo. Before it was the star of the evening's turn, the team behind the vehicle was allowed to introduce itself. Then, as the highlight of the evening, our RT14evo was unveiled to loud applause.

After the program, the guests could look forward to a delicious buffet, cold drinks and good conversations.

## THANKS TO OUR ROLLOUT SPONSORS

Of course, our rollout would never have been possible without support. In addition to the sponsors who support us day after day during the season, there are also some who have supported us specifically in carrying out our rollout. We would like to thank the TU Bergakademie Freiberg and the Alte Mensa for providing the location and event equipment and the media center for providing the print media and technology. We would also like to take this opportunity to thank Hotel Kreller, Rewe Enrico Kaden and Edeka Fiedler Freiberg for their support with the catering, as well as DBL Steyer and Nicoles Blumenatelier. We would also like to thank Franke Automobile and Autohaus Mäke for providing vans.

## RTo7 IN KÖ8

From May 31st to June 7th the customers of the shopping center KÖ8 could admire not for the first time during their shopping tour a prototype of our team. The RTo7, which can usually be found in the main building of the TU Bergakademie Freiberg, is our second electric racing car and took eighth place in the FSE world ranking. We would like to thank AWG Allgemeine Warenvertriebs-GmbH and especially KÖ8 Freiberg for the opportunity to exhibit one of our race cars with them.

## CAREER FAIR ORTE

On June 9th, the career fair ORTE took place in the sports hall "Ulrich Rüleln von Calw". For the first time again in presence after a long time, the most different enterprises presented themselves besides some offers of the university. We were also pleased to be represented with a booth and to get into conversation with the numerous exhibitors. We would like to thank the Career Center of the university for the successful day!

## MLP WORKSHOPS

On June 14th, 15th and 16th, we were invited again by our sponsor MLP. Over the three days, Danny Jahn introduced us to the secrets of preparing a tax return and gave us handy tips on how to score points at our first job interview. We would like to thank MLP and especially Danny Jahn for the successful seminars!
